BI & Visualization: Power BI, Tableau, DAX, Interactive Dashboard Creation

Data Workflows: Data Cleaning, Transformation, Validation, Modeling, Exploratory Analysis

Concepts: ETL Basics, Statistical Analysis, KPI Tracking, Business Reporting

Experience

Data Analyst

Jan 2024 – Present

BridgeLoyalty CEM LLP

Excel, SQL, Power BI, Google Sheets

- Converted 500+ monthly offline records into a structured Google Sheets workflow, reducing manual tracking effort and improving reporting consistency.
- Designed Power BI dashboards tracking productivity and KPI metrics, helping managers detect performance delays earlier.
- Validated and cleaned large datasets to ensure accurate reporting outputs and dependable analysis.
- Collaborated with managers and auditors to translate reporting requirements into dashboards and structured reports.
- Introduced scoring logic and reminder triggers that strengthened follow-up visibility and process accountability.

Trainee Power BI Developer

Apr 2023 – Jun 2023

proMX Software Technologies Pvt. Ltd.

Excel, Power BI

- Delivered 3+ performance dashboards supporting KPI tracking and operational reviews.
- Processed 10,000+ raw records using Power Query to standardize datasets and improve reporting reliability.
- Constructed 8+ DAX calculations that reduced manual reporting effort by 30%.
- Combined multiple data sources into unified analytical reports for business evaluation.

Projects

E-Commerce Analytics System | SQL

- Created optimized SQL queries to analyze transaction data and support performance reporting.
- Reduced execution time by 30% through indexing and structured query tuning.
- Produced KPI outputs tracking revenue trends, order volume, and operational patterns.

Sales Performance Dashboard | SQL, Power BI

- Analyzed 25,000+ regional sales entries using SQL aggregation and filtering techniques.
- Designed an interactive Power BI dashboard with drill-down filters for region and product insights.
- Built 10+ DAX metrics measuring revenue growth and category contribution.
- Detected a 14% post-festival decline in sales, highlighting opportunity for targeted campaigns.

Certifications

- Master Certification in Business Data Analytics – ITVEDANT (2023)
- Fundamentals with SQL – 2024
- Excel and Advanced Excel – 2023

Education

Bachelor of Commerce (B.Com)

2022

University of Mumbai, Mumbai
